

Meeting Minutes SPS Meeting 10/8

- Physics News of the Week: Further evidence for general relativity
- We will be playing Among Us social video game this Saturday 10/10 at 8pm.
 - Join our Discord server for it! Here is the invite: <https://discord.gg/nBrBjAZ>
- Dues are \$5 per semester, \$10 per year. Please pay them!
- Committee signups are still active! Please sign up!
- There is still time to sign up for an SPS Nationals membership (which is completely free)
 - Access to exclusive scholarships and internships
 - Free subscription to *Physics Today* magazine
 - Tons of talks about professional development, leadership, graduate school advice, industry advice, etc.
 - And a lot more that you can see here:
[https://www.spsnational.org/about/membership/benefits-sps-national-membership#:~:text=Attend%20professional%20society%20meetings,outreach%20materials%20and%20kits%20\(SOCKS\)](https://www.spsnational.org/about/membership/benefits-sps-national-membership#:~:text=Attend%20professional%20society%20meetings,outreach%20materials%20and%20kits%20(SOCKS))
- Tutoring is active, but we are still looking for more tutors!
- T-shirts from last year are now in! If you bought one, please find either Dominic Caputa or Kevin Barrow to get it to you.
- Zoe talked about her Brookhaven National Lab research through the SULI program, where she ran simulations to determine radiation levels directly above a particle accelerator.
- We tried (but failed!) at crushing eggs with our hands, because they are strong shapes!
- We went through the physics open course list for next semester's classes and briefly looked at the physics curriculum.
